Proposal

Project Name: get a job.

Project idea: helping homeless people.

Target users: They target people who do not have homes, and their age group allows them to

work, so that each person determines what work he can do to help him find a job opportunity and

their marital status is often unmarried.

Objective(s):

Homeless people are people who have not been able to find a job opportunity to support themselves and are able to obtain shelter, so when providing a job opportunity for them they will be able to have a home and a better life, in cooperation with companies or people who need people to perform some tasks they can contribute to Improving the life of a homeless person.

Platform: a phone/tablet application.
